SECTION 2 — DETAILED CLAIM REGISTER

Claim #1 of 4 — PY 2023-24 — LOC-2 San Francisco (Water)

Field	Detail
Claim Number	ZGC-2023-US-CPP-044821
Location	LOC-2 — 580 California Street, San Francisco, CA 94104
Date of Loss	August 14, 2024
Cause of Loss	Water — domestic supply pipe joint failure (copper compression fitting failure, 3rd floor restroom)
Description	A compression fitting on a 3rd-floor restroom supply branch failed, releasing water through floor penetrations into the 2nd-floor medical records area. Approximately 1,800 sq. ft. of carpet, ceiling tiles, and one section of dropped ceiling were damaged. Medical equipment was undamaged. The clinic operated at reduced capacity for 4 days. No business income was invoked as patient volumes were maintained in remaining examination rooms.
Gross Loss	$68,500
Deductible	$13,500
Net Paid	$55,000

Field	Detail
Reserve	$0
Status	CLOSED — November 2024
Risk Improvement	All 3rd-floor compression fittings replaced with push-fit connectors (December 2024). Annual plumbing inspection protocol established with licensed contractor.
Adjuster	Engle Martin & Associates — Ref. EM-SF-2408-7712

Claim #2 of 4 — PY 2023-24 — LOC-3 London (Water)

Field	Detail
Claim Number	ZGC-2024-UK-CPP-018843
Location	LOC-3 — 25 Canada Square, Canary Wharf, London E14 5LB
Date of Loss	March 11, 2024
Cause of Loss	Water — chilled water cooling circuit leak (air handling unit connection failure)
Description	A push-fit coupling on the chilled water supply to an air handling unit on Level 18 developed a slow leak over an estimated 6-hour period. Water tracked through the floor slab and caused staining and minor damage to the suspended ceiling tiles and one section of raised access flooring on Level 17. An area of approximately 350 sq. ft. was affected. No data or electrical systems were impacted. Repairs completed within 5 days.
Gross Loss	£42,800 (~$54,000 USD)
Deductible	£7,200 (~$9,000 USD)
Net Paid	£35,600 (~$45,000 USD — converted at prevailing rate)
Reserve	£0
Status	CLOSED — May 2024
Risk Improvement	All AHU push-fit couplings in the building replaced with compression-type fittings (April 2024). Quarterly chilled water system inspection added to M&E service contract.
Adjuster	Cunningham Lindsey (now Sedgwick UK) — Ref. CL-LDN-2403-5518

Claim #3 of 4 — PY 2024-25 — LOC-2 San Francisco (Power)

Field	Detail
Claim Number	ZGC-2024-US-CPP-059201
Location	LOC-2 — 580 California Street, San Francisco, CA 94104
Date of Loss	November 8, 2024
Cause of Loss	Equipment breakdown — UPS system failure (battery module failure); brief power interruption to medical imaging equipment
Description	A battery module failure in the UPS system serving the medical imaging suite caused a 4-minute uncontrolled power interruption to the MRI and CT equipment. The MRI quench protection system activated correctly, requiring a planned magnet re-energization (3-day process). One CT scanner required diagnostic testing. The

Field	Detail
	imaging suite was out of service for 3.5 days. Business income coverage was not triggered as the clinic maintained operations in other departments.
Gross Loss	$31,500
Deductible	$6,300
Net Paid	$25,200
Reserve	$0
Status	CLOSED — January 2025
Risk Improvement	UPS battery modules replaced with new units (December 2024). Quarterly battery load testing implemented. Generator automatic transfer switch tested under load.
Adjuster	Engle Martin & Associates — Ref. EM-SF-2411-8830

Claim #4 of 4 — PY 2024-25 — LOC-4 Edinburgh (Storm)

Field	Detail
Claim Number	ZGC-2025-UK-CPP-022190
Location	LOC-4 — 14 George Square, Edinburgh EH8 9LD
Date of Loss	January 24, 2025
Cause of Loss	Storm — North Atlantic storm system (Storm Éowyn; recorded wind gusts 90+ mph Edinburgh area)
Description	Storm Éowyn, one of the strongest Atlantic storms to impact Scotland in decades, caused the displacement of approximately 40 sq. ft. of original Victorian blue slate roofing tiles on the north elevation of the historic wing. A section of lead flashing at the junction of the Victorian and modern extension was also lifted. No water ingress reached the interior. Emergency tarping was applied within 24 hours; permanent specialist slate repairs completed within 6 weeks using matching reclaimed Scots Blue Penrhyn slate.
Gross Loss	£23,000 (~$29,000 USD)
Deductible	£3,750
Net Paid	£19,250 (~$24,000 USD — converted at prevailing rate)
Reserve	£0
Status	CLOSED — March 2025
Risk Improvement	Full slate roof inspection commissioned post-storm; 18 additional tiles identified as at risk and replaced preventively. Annual Scottish Weather Risk Assessment added to building management plan.
Adjuster	McLarens UK — Ref. ML-EDI-2501-4421
